## Rjay Gamboa Interview

**since when have you been interested to be a photographer?**  
I started model/portrait photography in early 2013.

**what has been the most memorable experience in your career ?**  
meeting models and photographers in the two IBMS event I attended in Cancun. Some of them I became real good friends with.

**What is your ultimate goal ?**  
Ultimate goal is to be in magazines like Sports Illustrated and Playboy.

**what do you enjoy most as a photographer?**  
Meeting new people and traveling to new places/countries to shoot.

**Do you specialize in one type of photography or you do other photos as well?**  
I try to do different types/genres of photography.

**what is your favorite equipment ?**  
My Wacom tablet.

**what would you recommend young photographers to do ?**  
keep on learning. There's always something new to learn out there.

**Do you have a preference on a type of model?**  
No preference on models. I try to shoot anybody who will let me.

**Tell us about your background, where you from, your family, how photography came into your life, your education, your love life...**  
Born and raised in the Philippines and currently living in Virginia Beach, VA. I have four older brothers and a younger sister. I was looking for something to do during the winter while living in Washington, DC and my brother Francis suggested I try model photography. He taught me almost everything I know.

## Blue Gamboa Interview

**Since when have you been interested to be a photographer?**  
- Through the years I bought cameras but not really utilizing their full potential. I did not fully understand how the camera functions manually thus I was shooting in auto mode. Until a year ago, my brothers Francis and Rjay got me into photography and the rest they say is history.

**What has been the most memorable experience in your career ?**  
- My first group shoot event in Cancun was unforgettable. I acquired so much knowledge from the experience plus I had a blast hanging out with my brothers. Lastly, meeting models, talented photographers and eventually becoming good friends with them.

**What is your ultimate goal?**  
- It is a long shot but I want to shoot for my favorite clothing company... I favor fashion photography and it would be remarkable to photograph for one of their style guides.

**what do you enjoy most as a photographer?**  
- Meeting diverse individuals and how it draws out the creativeness for whoever is involved. A photo that is captured does not rely solely on the photographer but also hinge on the model or subject.

**Do you specialize in one type of photography or you do other photos as well**  
- I try to not focus on any particular type of photography. I just explore and attempt to go against the grain. This is where creativeness is developed and I particularly believe in variety. One of my professional mentors once told me "do not put all your eggs in one basket."

**what is your favorite equipment ?**  
- My Canon 5d Mark III since it is one of the most technology advanced and fairly affordable full frame camera in the market. I tip my hat to Canon for constructing such an astounding camera.

**what would you recommend young photographers to do?**  
- Just go shoot and study your images... Take a step back and analyze the areas you can improve on. Attempt to be uncharacteristic and establish your own style. Accept criticism, good or bad, and use them as motivation.

**Do you have a preference on a type of model?**  
- I like to shoot models who are fun and atypical... I do not really pay a lot of attention on their facade but concentrate on their attitude. Also, the images we capture resonate from the artistic atmosphere of the

shoot. The more relaxed and enthused the shoot; the photographer and the model produce phenomenal images.

**who would you love to shoot and never had the opportunity ?**  
- Tough question because there are so many exceptional models out there. I am sure majority of photographers would love to shoot one of the well-known models in the industry. As a personal preference, I would like to photograph a model with a lot of potential so we can make the development we yearn. The sentiment of accomplishment would be very rewarding when our goals are attained.

**Tell us about your background, where you from, your family, how photography came into your life, your education, your love life...**  
- We grew up in a small town in the Philippines and we came from a big and loving family. Our parents valued education so graduating college is expected in my family. I graduated from University of California San Diego with a Bachelors of Management Science Economics, GO TRITONS! My brothers Francis and Rjay introduced photography to me and I enjoyed the first time I accompanied them so I unflinching gave it a try.

**Any little secrets about you that the industry would be surprised to know?**  
- A lot of people think it is easy to be a photographer. It is cool that we get travel to amazing destinations and shoot gorgeous models. However, a lot of time and practice is needed to produce awe-inspiring images. Unless you have an exceptional talent, tons of research and keenness is considered necessary. Lastly, just like any other industry, networking is the ultimate secret to be extraordinarily successful photographer.

**we are curious to know how 3 brothers ended up doing the same profession and all of them have so much talent at it**  
- Growing up we constantly covet to do similar activities. The fact that we always have a lot of fun doing things together, we tend to urge and assist each other to be extremely superior at whatever we do. Nothing compares to the positive criticism of my sibling to maximize my photography skills. Last but not least, I would like to thank our photographer friends, Jonathan Perez and Brad Wollman, for the behind the scenes photos of my brothers and me that are featured in this issue.

# Francis Gamboa Interview

Since when have you been interested to be a photographer?

I bought a camera in 2011 but due to my regular day job, I did not really start shooting seriously until June 2013.

What has been the most memorable experience in your career?

It would have to be my first print publication. Alyshia Ashlee (RIP) submitted our images to FHM Spain and it got published in December 2013.

What is your ultimate goal?

Since I will be traveling to the Philippines a lot, I would like to shoot for FHM Philippines.

What do you enjoy most as a photographer?

I've met a lot of good friends since I started shooting and attending events. I also enjoy shooting at exotic locations.

Do you specialize in one type of photography or you do other photos as well?

I mostly shoot bikini/swimwear and glamour but I would like to shoot fashion in the future.

What is your favorite equipment?

My favorite equipment is my Canon

5D Mark III and 70-200mm lens.

What would you recommend young photographers to do?

Practice, practice, practice. Ask the more experience photographers for tips. Some photographers will like your work and some won't. Don't listen to negative people.

Do you have a preference on a type of model?

Models that are on time and prepared. Hair, make-up and nails done.

Who would you love to shoot and never had the opportunity?

Too many models to mention.

Any little secrets about you that the industry would be surprised to know?

No secrets here. What you see is what you get :)

Also... we are curious to know how 3 brothers ended up doing the same profession and all of them have so much talent at it

I asked my brothers to get into photography. I thought they wouldn't like it and they'll end up giving me their equipment. My plan didn't work out so now here we are, shooting beautiful models together.

# Diana Wolf

alism for their work and the models. I dont only got to shoot with them but to make awesome friends

Between my goals for this year is to be in the cover of a magazine, attend fashion shows and why not TV Shows. Keep learning and growing as a model, it's also a challenge to myself and I believe I can do it. It would be an honor to become an example and motivation for future people that want to enter to this big industry but the most important to become an example to myself. :))

Born in Cali- Colombia and raised in Panama. I am 26 years old and am a student of alternative therapies and Belly Dance in Mexico and Panama, currently living and working in Panama in the Real state business. Music lover, I describe myself as a loyal, patient, hard worker and humble person respectful of my surroundings and the people around me. I like to live my life at its best, making the most of each day, giving the best of me with love and always supporting my family and loved ones.

My hobbies are singing, reading spiritual books, meditation, Yoga- when I have the chance, painting mandalas. I like to exercise and eat healthy, I'm on my way to become Vegan, for now I'm still vegetarian. :)

I like being free and able to express myself and I find in modeling all of that, it also helped me to grow as a woman love and accept myself as I am, Plus is exxxtra fun is like letting your inner Goddess out to be caught with the camera lens!

2014 has taking my modeling career to the next level by opening doors to wonderful opportunities, after attending to my first IBMS-International Bikini Model Search event last May in Cancun where I had the pleasure to meet the Gamboa Brothers. Working with them was the best experience, they made me feel comfortable by being patient and supportive, making of our Photoshoot an enjoyable and fun moment. I admire them for their high grade of respect and profession-

**I had the pleasure to work with Francis in Cancun.**

We only shot a short set because he had so many models he was trying to fit in but I'm glad he took the time to shoot me. He was super friendly and knew how to give direction to make the shot the best it could be. I look forward to my next opportunity to work with Francis!

Emma is 23 from San Diego California and works as a hair and make up artist in Southern California. Growing up with 3 siblings she's worked hard to gain her own success and learned to work hard for what you have. People have always told her she should model and then she had the opportunity to be a part of the International Bikini Model Search Competition in Cancun, Mexico. She there learned she had the potential to be in front of the camera and gained a new passion for the industry. Emma ended up not winning the contest, however placed, as well as gained many opportunities to shoot with amazing photogra-

phers, be featured in magazines and get contacted by multiple agencies. The experience in Mexico helped give her the confidence she needed to pursue the industry further. Emma's dreams are to be as successful as she can be! No matter what that is, she knows she wants a house and a family like the one she grew up with. ## My PhotoShoot Experience

My photo shoot experience was absolutely incredible. I believe the relationship between the photographer and the model has a huge impact on the outcome. When I met the Gamboa brothers we kicked it off, there was an immediate connection and it made the shooting experience so much more enjoyable. Their work is amazing, from the lighting to the angles and so much more. I have shot with many photographers around San Diego and by the Gamboa brothers have the best work!!

Her first name is a Hawaiian first name, Noelani, meaning "heavenly mist or mist from heaven". Noelani's ethnicity is a mixed of Filipino and Caucasian. She was born and raised in Riverside, California but moved to San Diego in 2009. She states that she is so grateful to live in such a beautiful place with so many amazing attractions. She is one of four siblings, two older brothers and one much younger sister. Her family will always be number one because at the end of the day, they are not the ones to judge or hate.

Currently she is managing a few dental offices throughout San Diego while attending college. She wishes to major in Criminology or Forensic Psychology. With the major she wishes to work with the top agencies all over the world.

Her goals in life continue to grow everyday and her ambition never fails. She constantly is on the go, realizing opportunities and going after them. She is never afraid to fail as it is a part of life and learning. Her mom always told her to reach for the moon because if she fails she will be among the stars.

Modeling for her started out a passion/hobby about 4 years ago. Over time she has slowly grown to enjoy being behind the camera to capture the envision of the photographer. The outcome to her makes every pose worth it!

Fun fact about Noelani is that she absolutely hate socks and everything about them!.

homeless at one point. She has since studied Acting for Film, Television and Theatre in Toronto and has earned over 10 film and television credits including three films that have been screen Internationally and or nominated for awards.

Robynne continues to make her mark as a Model and Actor while maintaining a balanced lifestyle in fitness and as a single mother. She hopes to inspire people to always run head first into their dreams and with her life's experiences she knows that nothing is impossible to achieve.

"Someone once told me you can't live off of dreams. I told them with-

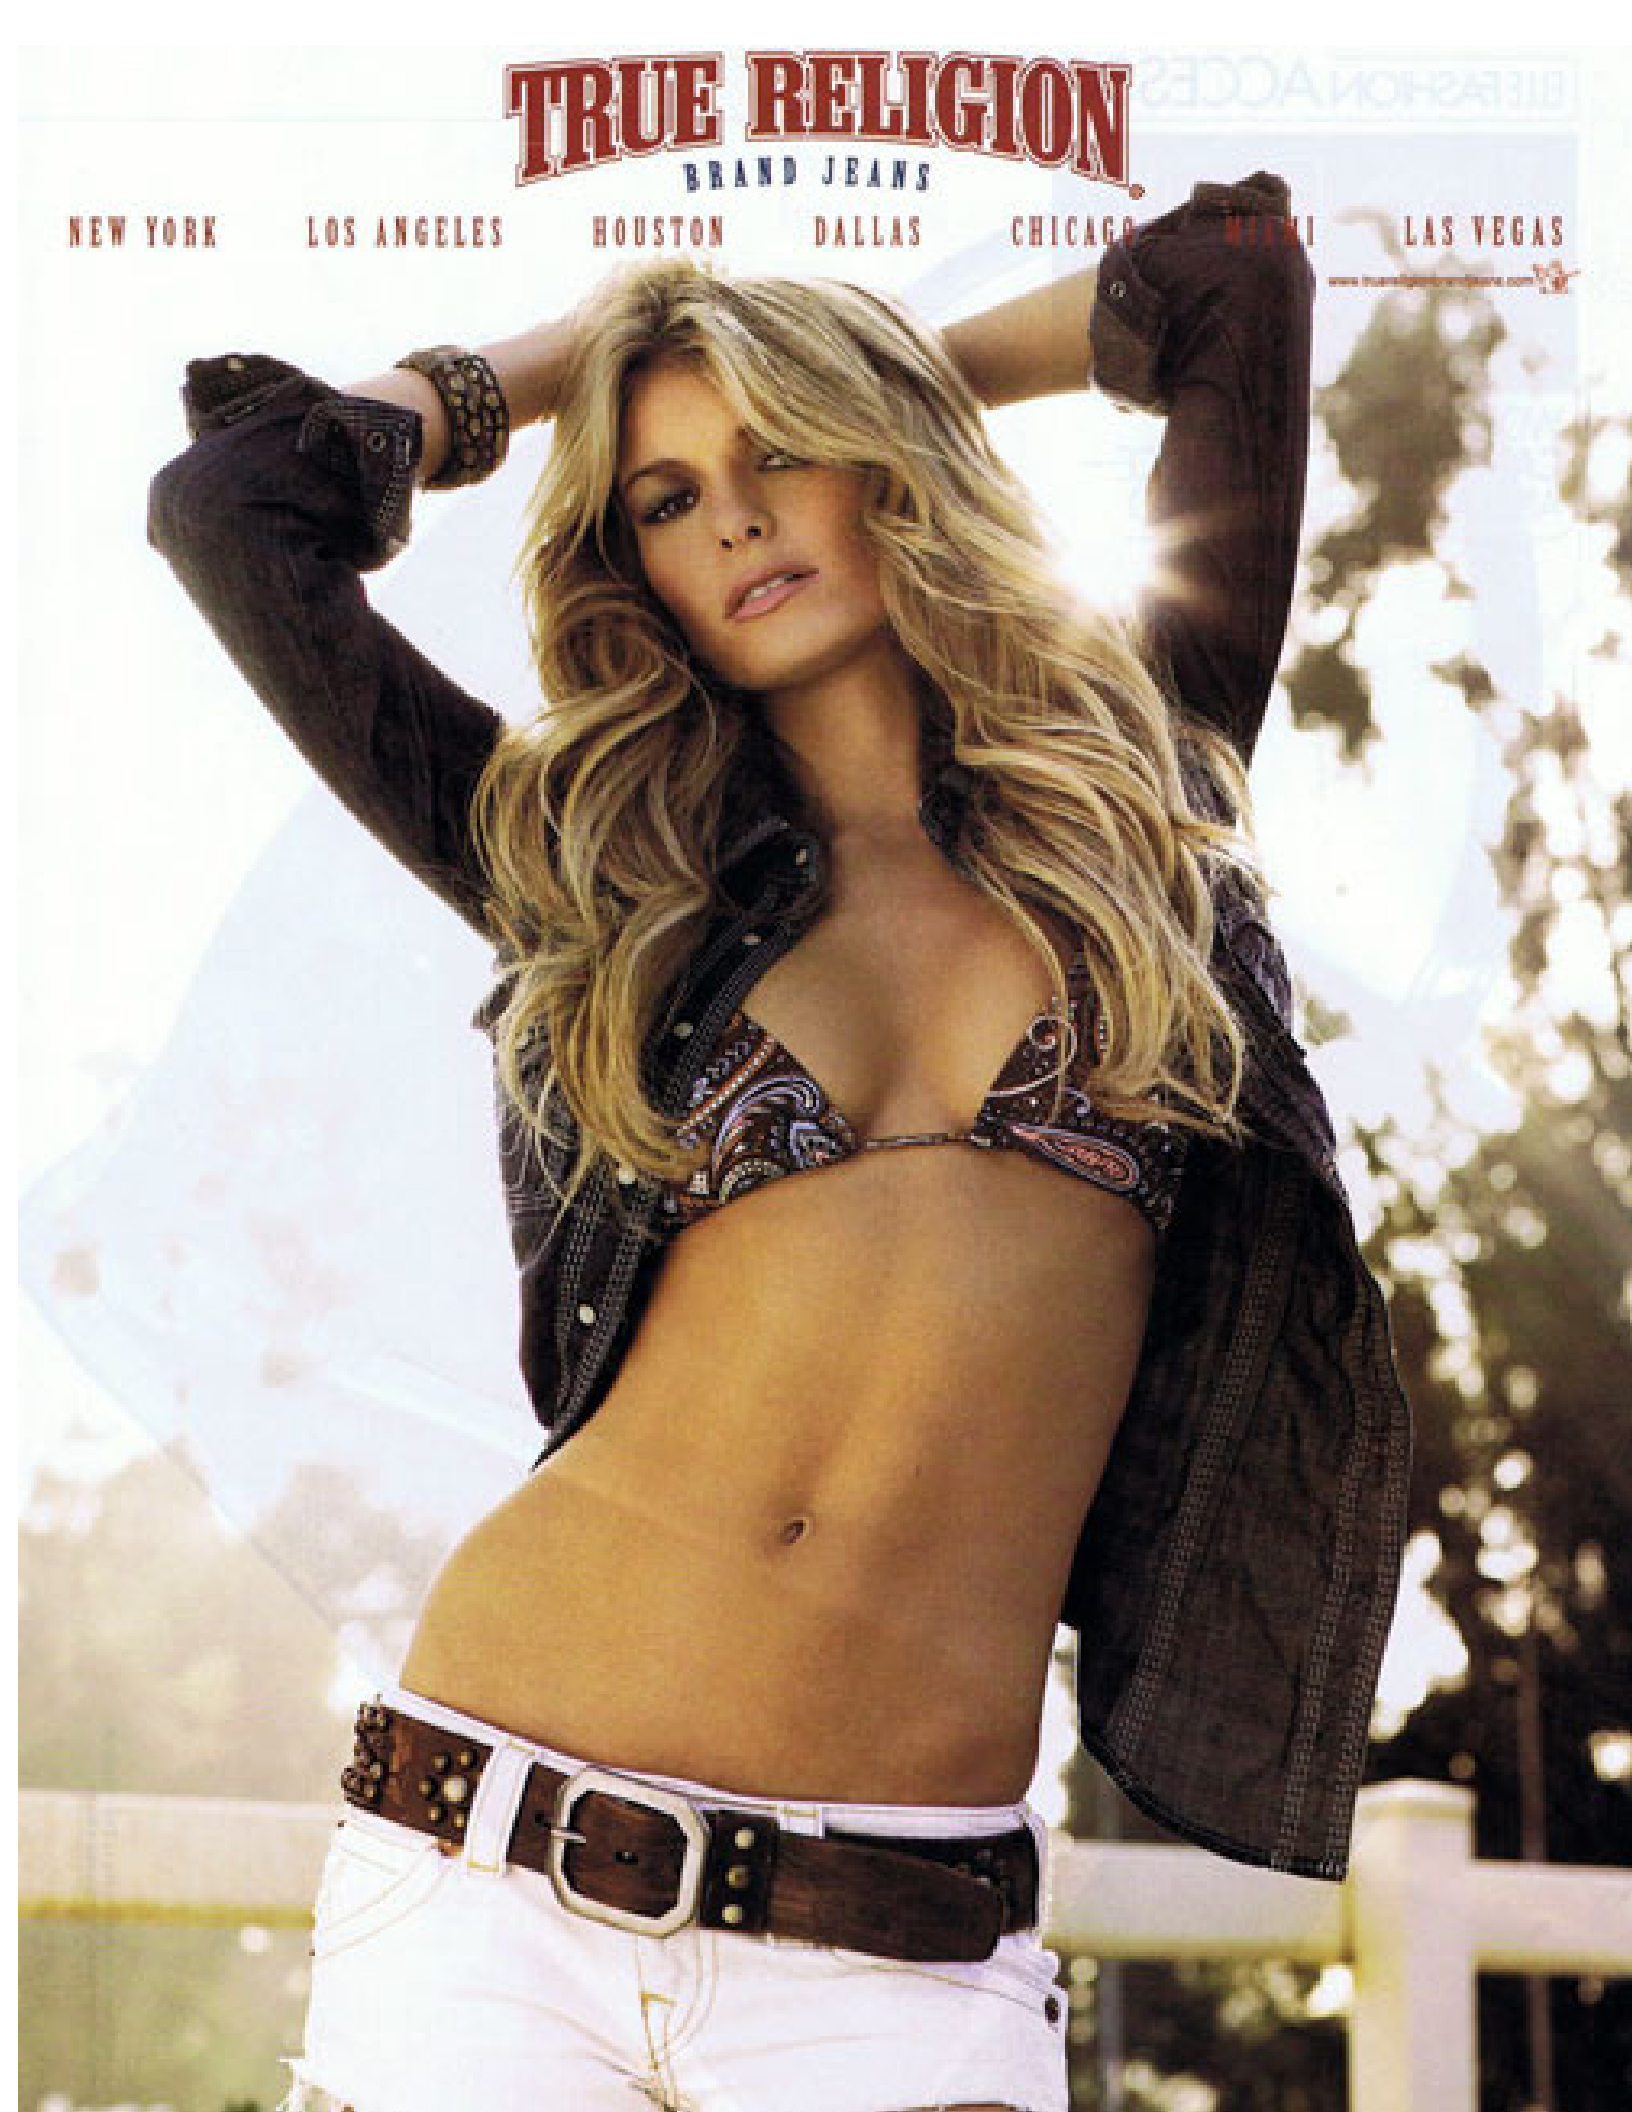

out them I'd starve. I defy odds every day"

I've been spying on Francis Gamboa's work for over a year now so when I posted a travel notice that I was heading to LA for a week this passing summer I was naturally beyond stoked when he approached me to work with him. I had an amazing day shooting in Laguna Beach and there was no where in the world would have rather been. Francis is very easy going and fun to work with. We had a lot of giggles and I'm so impressed with the number of great shots we got. It was so hard to choose! That is always a good sign. I've had the privilege to work with a lot of great photographers and Francis is no exception. He is among one of the very best!

# MissCongeniality

Rosy Mc

My passion for modeling propelled me to higher achievements and won me popularity and respect.

I have had the opportunity to enjoy different horizons of life and interact with people from different cultural backgrounds. I was born and raised in the Philippines in an average family. What we lacked in money was compensated by love and understanding. My passion for modeling propelled me to higher achievements and won me popularity and respect. I have participated in beauty pageant competitions in Philippines three times. My great personality, super talent, intelligence, and adorable physical beauty earned me a three times' success as the most elegant beauty in the pageants.

I participated and won awards as miss congeniality. The award in congeniality had its roots in a healthy social network that I had developed. My friends have always testified of my geniality and cordiality. They always agree to my warm and exceptionable nature in hospitality. Dressing is a form of expression and I always believed one should never keep themselves in a shell. I particularly admired this aspect of American models. Modeling was also something I had always wanted to do from my childhood. Besides modeling I also valued education, as beauty alone does not complete a person. Beauty can be compared to

gift-wrapping, which may be appealing; however, the gift that it covers is the true treasure and what brings joy. My hobby in travelling and social network has earned me good friends such as the Gamboa brothers. The experience I acquired after interacting with the sociable and famous Gamboa brothers impacted positively in my modeling career. I met the three brothers who are prominent in photography during an international bikini model search in Cancun Mexico. The three lovely brothers' inspirations encouraged me to pursue modeling as a profession and practice. The brothers' accommodative

and friendly character always enticed me for camera photos. Gamboa brothers were also easy to work with as they rarely engaged in negative and discouraging discussions. Gamboa brothers' warm and friendly nature greatly enhanced my career. Since the three brothers equally spoke in Filipino, I learn from the brothers' professional new postures. During the camera, shooting sessions in both Mexico and California, the brothers taught me patience and humility skills that are relevant for modeling career. Despite the high number of models the brothers attended to, they would always be flexible to teach and guide me.

Jill Cisternino

I loved the photos that I had done so everything just started from there. I have always been an artsey creative person so modeling, doing make-up and styling my shoots it allows me to express myself. Aside from modeling I bartend in New York City and I am attending college majoring in communications. When I am not busy working I am probably working out, partying in the meatpacking district, shopping or even getting a tattoo.

In her spare time, Tessla enjoys kayaking and fishing. She is excited to develop her passion and looks forward to finding opportunities to advance her modeling career

I loved working with Rjay and Francis Gamboa ! They are super cool and fun to work with.

All the models I have met have been lovely and very business smart!

**HELLO** I am a model from San Diego, CA and I attend Point Loma Nazarene University! My interests are anything that has to do with the outdoors. I love snorkeling, yoga, surfing, dancing, writing, photography, and film. I am a creative spirit :) I started modeling during my sophomore year of college and I have had so much fun so far! The biggest stereotype is that models are "dumb" or "mean". All the models I have met have been lovely and very business smart! I loved working with Rjay Gamboa and Francis! I have been modeling for about 10 years & internationally published! I have worked with many photographers & some of the best! I want to take a moment to speak about my experience with Rjay & his brothers. While in Cancun I was looked over, I'm assuming because of my age. I will be 39 next month & the mother of 2. Rjay & his brothers on the other hand made me feel special! They took the time to see who I was & yes we made photograph magic. They are all 3 the most compassionate, delightful professionals to work with! It was an amazing experience. So a big shout out to 3 great photographers who see the real beauty in people.

Thank you all so much for the time & dedication! I would shoot with them anytime & recommend them to all women & models. It was so refreshing to work with these gentlemen! Not only did they make me feel special but beautiful. Best part about Cancun was meeting them both. Thank you for the memories & amazing photos.

Working with Rjay was refreshing and motivating, as his style of shooting was very flexible while still having a clear vision

Dutchie

Dutchie is from Winnipeg, Manitoba, Canada, and began modeling professionally at the beginning of 2014. In just several months, she has gone from having almost no portfolio to having done many shoots with world-renowned photographers and has been featured in some of the largest publications and on world-famous websites. In addition to modeling, she also hosts events, acts, provides correspondent work, and offers a variety of other media-related skills. She wants to make sure she establishes her career on a sustainable foundation, as modeling can many times have a shorter 'shelf-life' compared to other

careers. One of her first experiences, when she initially dove into the realm of modeling, was a trip to Cancun where she did fifteen bikini photo shoots in six days. Two of these shoots were with Rjay Gamboa of HGIII Photography. Dutchie was overwhelmed and flattered by the demand she was facing, having to complete so many shoots in such a short amount of time. Working with Rjay was refreshing and motivating, as his style of shooting was very flexible while still having a clear vision. His direction combined with providing encouragement blended into such a comfortable, yet dynamic, experience. She'll never forget how encouraging he was, and still is, as she continues on this incredible journey.

# Bebe Sayarath

I am of Hmong and Lao origin. I first started working with RJay in May 2014. In my short time of modeling I've had the chance to work with some talented photographers. RJay has to be my first choice if I had to pick. He is laid back, easy going and definitely knows what he's doing when it comes to working the camera and getting the best shots of my good side lol. He helps direct you from your pose to pose and being new to modeling that really helped me. I would recommend RJay to any model who is serious with their modeling career. He has helped me get here and I would work with him again, anytime.

# Courtney Myers

All the way from small town in north central Florida (Go Gators!), Courtney is out to snatch the cover of bikini magazines everywhere. She's a fresh model, only 20 years old. Ever since her first photo shoot, she knew she was destined to succeed as a swimsuit model. Her journey, though short, has been life changing. Currently she's enjoying the beaches of the east coast, supporting her Navy husband, and working on her college degree. Catch her at Hooters in Virginia Beach and follow her accounts to see her succeed.

# Kayla Rhea

This golden beach bunny was born in raised in sunny San Diego, California.

Kayla’s sun-kissed tanned skin, bleach blonde hair and slim physic are an obvious giveaway that she practically lives at the beach to help stay fit in her spare time. Her big bright eyes and exquisite bone structure are derived from her German and Native-American heritage.

Kayla is extremely energetic and friendly, which enables her to make new friends where ever she goes. She playfully embarrasses her close friends with her wildly outgoing personality. She is a girl who loves taking risks and living life out of the normal lines. Her positive vibe is truly magnetic.

Only recently beginning her modeling career, Kayla has already done a variety of gigs and is still blossoming within the industry.

She’s done promo work for many recognizable companies including Torque, American Boxing, Speed Energy, Smart Wax and SST. Her favorite projects she’s been involved in lately have been a bikini runway for Kandy Shop Bikinis at a popular nightclub and a commercial for Stadium Headphones. Kayla has now become a welcome addition to American Martial Arts Movement!

Kayla is more than what meets the eye. She also has a deep passion for theology and graduated her Bible College with straight A’s.

This lovely young lady has a deep concern for those who may be less fortunate in the world. She has led several support groups and spoken on assistance at local conferences and support camps.

Kayla has a warm heart, her love for others and for helping those who’re struggling or in need definitely make her a clear stand out amongst her peers.

# Kayla Rose

Kayla Rose is a southern belle born and raised on the seashores of the City by the Bay we like to call Corpus Christi, Texas. What started out as dreams for Kayla soon began rolling into a reality when she began competing in Hooter’s Swimsuit Pageants. Her dream of being a model really took flight when she competed in one of the largest annual swimsuit pageants, Miss Hooters International, and claimed her stake as one of the top 100 Hooter Girls from around the entire world. Her dreams were suddenly digging roots and she knew all of them were possible. Her first attempt at stepping into the modeling world began when she traveled to Cancun, Mexico to attend her first International Bikini Model Search event (IBMS) where she met RJ Gamboa and his brothers. RJ is the first of the brothers she has had the privilege of working with and their shoot together is one of her favorites to this day. “You hear and see nothing but good things about this well established group of photographers.”,

she says. She aspires to be a Playboy Playmate crowned Playmate of the Year, as well as gracing the covers of many magazines including Maxim and Sports Illustrated. Some of her goals, there are many, include earning a second degree (yes she already has one- a Bachelors in Psychology), owning her own Productions and Promotions company, opening every girl’s favorite boutique, traveling the world, and writing a book on life and love. Kayla’s biggest ambitions are success and happiness. She says, “If I am not happy, how could I have succeeded?”. Blessed enough to have come from a background of empowering and supportive family and friends, Kayla has pushed through the critical eyes of the world and continues to chase her dreams anyway. She claims there are days her parents and closest friends believe in her more than she does herself and they are the ones who keep her going. Kayla’s little life secret is to just live, love and laugh along the way. Her motto is, “You can do anything in the world, but you can not live your life twice.”

Layli got into modeling almost 2 years ago and it has opened up doors that she never thought would have. She has traveled around the World and worked for Hulk Hogan because of modeling and The Bikini Model Search. While at The Bikini Model

Search she had the honor of working with the Gamboa brothers. The best thing about working with them was how comfortable they make the model feel! The best photos always come when you have that! They also know how to make you smile, laugh and feel great about yourself! What isn't

there to like about that? Layli is a student working towards her Doctorate in Audiology. She originally got her BS in Sport Management which she worked in that area of expertise for 4 years out of college, two years of which were spent in Minor League Baseball. The best part of that

was the interaction with fans and watching the top prospects play. Her favorite hobbies are to play beach volleyball and berry picking during a nice long hike. There is nothing that doesn't Intrigue her! On Sundays you can find her watching football.

With every shoot I do, I take away something and I definitely learned a lot of great tips from my experience with the Gamboa's

**A** Canadian model, for the past 4 years, from the steal cold streets of Hamilton, Ontario. I may be from steal town but I've got a heart made of gold. Born on New Years Eve, that makes me a party animal AND a snow bunny! As much as I love the cold and snowy winters of Canada, I feel truly at home basking in the warm, white sands of amazing tropical beaches, like the one at Oasis Sens resort in Quinta Roo, Cancun, where I met and worked with all three of the amazing Gamboa brothers. Nothing makes me happier than rolling around on the clear, clean beaches, with a photographer (or 3) nearby, camera on hand. Our shoot was tonnes of fun and couldn't have been in a better setting. These three guys made waking up for early mornings easier with their happy, always smiling faces and fun, uplifting spirits. Our shoot went smooth and at a great pace, as time to catch that perfect morning sun is limited. With the assistance of each other, they enabled a fun and comfortable photoshoot that played out great and while the sun was still rising. I really enjoyed shooting with these guys in the sunny paradise of Cancun and will always be grateful for this opportunity. With every shoot I do, I take away something and I definitely learned a lot of great tips from my experience with the Gamboa's. It would be a pleasure to work with these guys again in the future, and any of the other amazing photographers and artists that I met on The Bikini Model Search – Cancun.

Rjay is amazing and I always recommend him to fellow models. Just an all around amazing person & photographer.

Not only is Francis a Fun & friendly person but he was very professional and always made me feel comfortable. He is amazing and I look forward to working with him again soon.

I got to shoot in a HUGE mansion & in the Desert with Blue during my visit to San Diego. I look forward to working with him again in hopes of creating some amazing images.

They always told me I was a pleasure to work with and that I needed very little or no direction at all. They said that I made their jobs so easy and I was always invited back to shoot with them again. truth is, I just stand there and look pretty, its all because of them that the photos turned out as amazing as they did. I have met Francis and Blue Gamboa at a Harley Davidson shoot for "babes and bikes" earlier this year and it was an incredible experience. Honestly, I had put modeling on the back burner for a while but after seeing the amazing photos that came out of that shoot and working with such professional, experienced photographers, I decided to dedicate more of my time to modeling again! This year has been a whirlwind of photo shoots and I have had the opportunity to work with some incredibly talented people, however, my most memorable shoot of all was with Blue and Francis at blacks (nude beach) in San Diego. It was a double shoot with Blue shooting me and Francis shooting the gorgeous Ivy Ferguson. I had so much fun... The weather was perfect, I felt so comfortable, Blue gave just the right amount of direction but still allowed my personality and poses to shine through naturally!! As you can see in the photos, the lighting was awesome, I was at ease and with Blue's expertise, the result was perfection! I would gladly shoot with Blue or Francis again if I were given the opportunity!
