Hi! My name is Ashley and I'm 30 years old now with 2 beautiful children...a daughter who is 7 and my son is 5. I recently divorced my ex husband for the second time and found this new confidence and self-esteem I had never had before. And then found a new passion in photography and the beauty of the human body. The

body is a beautiful! I believe there is beauty in everything but it is up to us to capture beauty at its best. And that is what I do. I plan to shoot for the stars in this industry. I want to go as far as I can and have the confidence I can get there. I hope to gain more fans than the many I have already have that have supported

and encouraged me. Thank you Vance Davis and MJ Brown for the beautiful photography that gave me the confidence I needed to succeed in this industry. And thanks to all my fans now and I'd like to thank the new fans I will soon have, without all of you, I wouldn't make it anywhere!

If you have never met a true Southern Belle, then look no further! Brooklyn is sweet, sassy, Southern beauty at its best. This twenty-two year old blonde bombshell is every boy's dream, and also a girl that Southern mamas wouldn't mind their son bringing home for family dinner, especially if that supper included fresh green beans, macaroni and cheese, and a big ole steak! Those are all Brook's favorites. Growing up with her twin brother in Maryville, Tennessee, she was active in cheerleading, softball, and golf. Now, she enjoys

hiking, camping, rock climbing, cleaning, and rooting for the UT Vols! Somehow, she still manages to find time to study and pursue a career in integrative health. She's also a licensed chiropractic assistant. On her days off, she loves to curl up with a big helping of Netflix and junk food, but brownie batter is her kryptonite.

Her beauty and brains started gaining her attention, so Brooklyn finally starting modeling about two years ago. Being new to the industry, she has only dabbled and

modeled on and off in the past. However, this year she has decided to really pursue a modeling career, and she has taken off! Brooklyn is on the rise! She is now the face of K&G Creative, after recently being named the K&G Creative 2015 Model of the Year. Her motto, "You can be the ripest, juiciest peach in the basket, and there will still be someone who doesn't like peaches," is often true, but seems to be excellent motivation and great words to live by.

Chels Mak

Chels, although her appearance may be girly, comes from a small country town where her hobbies include anything outdoors. From fishing, mudding and country music. She has a passion for animals and hopes to one day travel the world with her tourism and travel degree and save animals along the way. She has her own dog she likes to call her pride and joy and would one day like to open her own boarding kennel. Chels loves to party and hang out with her friends on days where she isn't in school, working or doing a photoshoot. She has been modeling for a year now and loves the thrill of new and creative ideas as

well as meeting people in the industry. She would one day love to be a model for a clothing, bikini or lingerie store. One of her favorite thing to shoot is of course bikini. Although she may not be the tallest, the skinniest and most prettiest she most certainty has the confidence and the main assets needed to look good and that's just a bonus to go along with her bubbly, happy personality (thanks to her boyfriend, as she would put it). She would like to thank Robert Deack for giving her some amazing tips and allowing her to have a blast while receiving these amazing pictures.

Courtney Deputy

Hello! My name is Courtney Deputy. I am a freelance model based out of the midwest. Standing only 5'1 I have not always had the confidence to follow my dreams to become a model. Life has faced me with many different obstacles that I have had to overcome. Being the strong independent woman that I am I finally made the decision to not let the opinion of

others control my life. Two years ago a local gun shop owner asked me to be featured in a calendar to help support his business and raise money for the wounded warrior project, an organization empowering wounded war veterans and their families. This opportunity to help others sent my career down the right path. After the calendar I went on to win our local

radio station KRNA bikini contest along with getting published in three magazines which included being the cover girl for November 2014 edition of southern vixens magazine. I have a strong passion for this industry and will continue to keep striving for my goals and to prove that beauty really does come in all shapes and sizes.

My name is Courtney Marie and I am a 23 year old New Jersey native. I am the Jersey Girl that could throw on jeans and cowgirl boots one day and a dress and heels the next! My family and friends would describe me as outgoing, trustworthy, kind-hearted and creative. Some of my hobbies would be attending country concerts/sporting events, crafting and anything adventurous! I am excited to see what the future holds for me and am so grateful for my past, present and future opportunities in modeling.

GRACEFLACK

For as long as I can remember, photography has always been a passion of mine. I believe I always had an eye for picture perfect photographs. However, as I began to grow up, I became less interested in being behind the camera and more interested in being the spotlight of the image. Problem was, I had no idea how to get started. I was born and raised in Nova Scotia, Canada and recently took the leap to moving to Ontario in April 2015. Which for me, was

very convenient seeing as the International Bikini Model Search 2015 was held right in my area. Without knowing anything about bikini modelling, or modelling at all for that matter. I took the initiative to register for the competition. Little did I know I would walk out of there with the IBMS Canada title! It was such a surreal feeling... I still remember hearing my name over the announcement and the sound of the crowd cheering as I walked out to claim my prize. After

that, everything was happening too quickly. Photo shoots, trips to the Dominican Republic, meet and greets, the whole thing. And although this is just the beginning for me, my confidence, positive attitude and determination will keep me striving for success. I look forward to seeing where the industry will take me and am feeling great about the future and what is to come.

Jaimie Rose

I am Jaimie Rose, 24 years old from Woodbridge New Jersey, I have brown hair and brown eyes. I am Italian German and Irish. I am a full time student at Kean university, studying accounting and I work full time in a bank as a teller. I have a four year old son who is my world. My hobbies are baking, shopping, spending time with my son, wake boarding, snowboarding, and hanging out with my family and friends. I always had an interest in modeling! I love being in front of the camera ever since I was little.

Krista Gale

I grew up in a small town with a big dream. A dream that seemed unreachable for a short awkward little girl. I was put into a few beauty pageants when I was young. Surprise, I never won. I never had much self esteem. But I never wanted to give up my dream, so I convinced my parents to put me into a modelling class. This class taught me alot about walking, strutting and posing. The best part was at the end of the whole class I was told that you need to be at least 5'10 or taller to be a model. Well, didn't that just burst my bubble. So I put my dream on hold for a while. Went through highschool, college and moved all the way to British Columbia for fun. Met a guy, it turned into a thing. Told him my dream, and he suggested I continue to pursue it. With little to no experience I joined a model website called model mayhem. Found a few local photographers, and started to actually do real modelling gigs. Soon after I conjured up even more courage and decided to submit myself into a bikini contest. Wow, was I ever nervous. But never the less I did it. Not to long after I had discovered I was pregnant. Sure enough first thing that ran through my mind was, "how long will my dreams be put on hold for now?" We then decided to move back to Ontario. I then gave birth to my beautiful son, and thought to myself, "if I can give birth, I can do anything if I set my mind to it." So I got up off the couch, worked hard and started searching for local photographers. Found a few, did some shoots and now here I am. Never give up hope!

Hi my name is McKenzie age 19 from Jackson New Jersey. Ever since I was a little girl I would pose in front of the mirror for hours with merely lipstick and my own reflection wondering what it would be like if I could make this all come true. Years later, I'm here to make my recurrent

dreams reality. I enjoy working out, cleaning, eating, riding my horse, beach days, shopping, a huge adrenaline junkie, live for laughter and enjoy nature and kayaking. I'm also a business major with a minor in psychology.

Hi everyone. I'm Tara Jayne and friends call me TJ. I'm a professional freelance model from a small town outside of our beautiful bluegrass state of KY. Home of the famous University of KY Wildcats. I have a BS in Marketing/Biology and have been modeling for six years. I do marketing for a hospital outside of Va and love it. I have been a Maxim HomeTown Hottie a few times I've been published numerous times and do represent a few swimsuit and lingerie companies. I also have done promotional modeling for 6 six years, representing several companies and their products. Such as Team Enterprises, Boars Head, Budweiser, Miller Lite, Lucas Oil, Cincinnati

Reds Ball Games, and many more. I love fashion and traveling and love spending time on the water but most of all spending all my free time with my family and friends. As far as my love life I have never been married and have no children. I just haven't found the man I want to spend my life with but hope this changes soon. I have recently began seeing someone and look forward to seeing where this goes. I love watching old TCM movies with my mom and love the fashion for the men and women of those days. So elegant. I also love comedy clubs, basketball sporting events, and anyday at the beach for me is always very special. Which brings me to admit that I am a resort hopper:) I Love traveling to different resorts all around the state of Florida especially during our winter months.

My mom is truly my best friend and also my manager. She is my rock! She keeps me grounded and my priorities straight. I love to work out and keep in shape. I don't belong to a gym but have my own routine that I do on a daily basis either at home or in the gym when traveling. I love home cooking and know my mom is the best cook in the world. Growing up on a farm riding 4 wheelers, boating, and swimming I guess you could guess I was a little tomboyish growing up. Yes I also do know how to shoot guns and I go sharp shooting practice with my brother Ben.

I am very outgoing and ambitious and take pride in never meeting a stranger. I know models can have a bad reputation for being bitching and hard to work with. I take great pleasure in being able to provide references as to the opposite proving I am nothing like that. Also nothing on me is fake. I have what God blessed me with and have no intentions of having breast implants just to look like all the other big breasted models. I love myself the way I am. The way I see it is if you want to hire me then take me and my body as I am and don't suggest changing it. If that's the case there are thousands of those models out there for you. I also have no Tats and don't want them.

My goals as a model are to make it in as many known magazines as possible and it would be great to be a Victoria Secret Model but being 5'3 that won't ever happen.) So I believe I should win because I could represent Jetset as one of the best models. I am confident but I have never been conceited nor forgot where I've come from. I love meeting people and making new friends and ready to begin this new journey. I believe I should win because I could represent Jetset as one of the best models. I am confident but I have never been conceited nor forgot where I've come from. I love meeting people and making new friends and ready to begin this new journey.

Chicago model pursuing her dreams. I grew up in a small town where everyone knew everyone. Everyone knew my business good and bad. I've always wanted to work in this industry but was always brought down by family saying I would never make it. People all the time don't make it. I understood that. However, I wasn't everybody. I thought

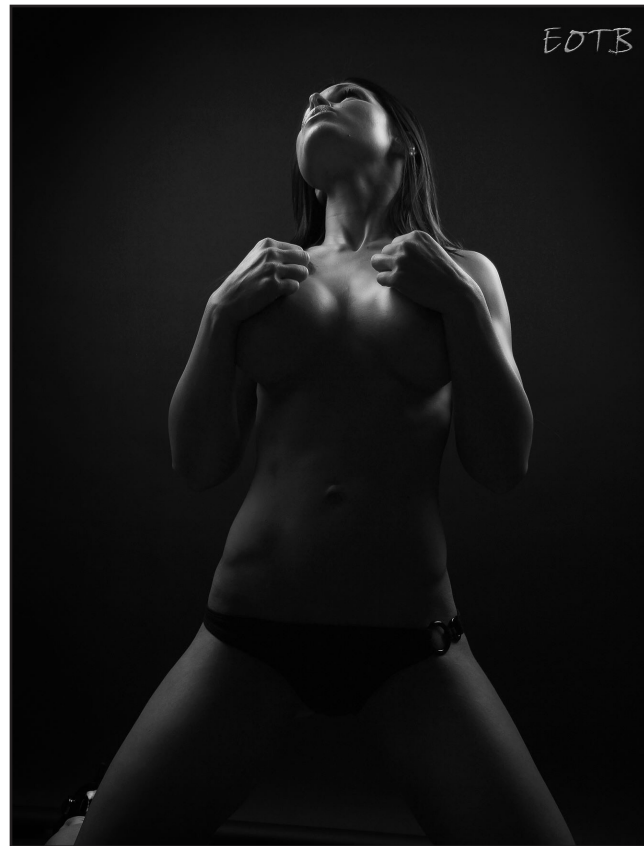

of myself very highly because this was something I've always wanted to do. So once I turned 19 I said I was going to go for it and I'm not going to stop until I get what I want. Until I get what I think and feel I deserve. And I have skyrocketed ever since. I travel all over the U.S (with the help of Michael Chavez of Ravish Modelz Magazine) doing

all sorts of shoots, having my work printed and up in shops in Vegas and California. I couldn't be happier. I'm making what I thought would be almost a bit of a hobby a career. I get paid to do what I love and that's why I'm still doing it to this day. Don't ever let the fear of striking out keep you from playing the game. You never know what could come of it.

I was born and raised in Toronto. Since the age of three I was a dancer and that's where I spent all my time. I always wanted to model and I finally decided to pursue that pathway in 2014. My first modelling gig was for the Toronto Sun newspaper, being featured as a Sunshine girl. Following my first photo-shoot, I quickly got the opportunity to participate in a fashion show where I got to walk for an amazing high fashion designer and a fun swimwear designer and then I got busy with editorial shoots. I've had an awesome opportunity to be featured on an album cover and merchandise for a band called Lungless. Recently, I got a nice editorial piece & feature

for a beautiful luxury swimwear line, La Maison de Pascale. I am currently working on completing my college degree in Biochemistry and hope to have an interesting lab job upon completion. Science is something that I love and am extremely passionate about, it never fails to amaze me. Since I am a complete science junkie, I spend most of my time catching up on the latest science articles on the web but I also spend my time either playing video games or going out and about. I love being active so I rarely spend an extended amount of time sitting, I love going for runs, going for long walks or even going on adventures to explore new places.
