I live in Red Deer, Alberta Canada. I have just started getting my modeling in order and discovering what I want to do in life.

I believe that becoming a better model is the same as becoming a better person, it takes dedication, planning and action every single day. So if you're looking for a model who is prepared to work anytime, who strives to be the best in whatever they do while having fun doing so, I'm your girl.

I am a 19 year old model, I got into modeling because I wanted to express myself in new ways and meet new and interesting people, I started modeling when I was 18. My hobbies include sewing, sketching pictures, modeling, Hair Styling, and just being creative. I love cats and country music!

I appreciate good fashion and great makeup. I'm currently in college obtaining my Hair Styling Specialist Certification. I like to play with different hair colors and see what happens. I love art in many forms and appreciate great works.

I plan on pursuing a small modelling career, but mostly focused on college and getting a job I love.

FEELSTON

I am young at heart, open and out going. I love to laugh. I am kind to strangers, I care about my community. I exercise so I can do whatever I want guilt free. I'd be a vegetarian if it wasn't for bacon! True story! I love the outdoors weather it's being on the beach, in the lake, hiking in the mountains, riding my long board, or gardening. I love to travel, and meet new people. I believe you should say hi to as many people as you can in this life, you never know who you'll meet that will take your life in a whole new direction! I am a stage 4 breast cancer survivor, single mama and a small business owner! Life has taught me a lot of lessons, but the biggest 1 is everyday is a chance for a new adventure! Life is short.... Live it!!

Brooke

My name is Brooke, I'm from the small town of Simcoe. I have green eyes and blonde hair, and I'm currently going to school to be a nurse, and I love to model. I started out modeling for a photographer with little experience and little skill I felt very uncomfortable at first as I didn't know what to expect but my first photographer gave me the confidence to be in front of the camera making me very comfortable and relaxed at my shoot. With his assistance that quickly

lead me to modelling for bigger and better things. Memories Digital Imaging helped me with getting all my profile shots done and various other work to build my portfolio. My first submission was sent out to Bikini Magazine after which I then went to the Delta Amour Hotel in London and had the opportunity to model for a Dress shop called Elle Couture. It was so much fun and I met some amazing people along the way. I then had opportunity to do some modeling for tmedia and it gave me some great experiences also. Shortly after I was published online at womanandwheelz.ca, they published me in three separate issues! After that publication I then applied to be a Toronto sunshine girl and got a message back right

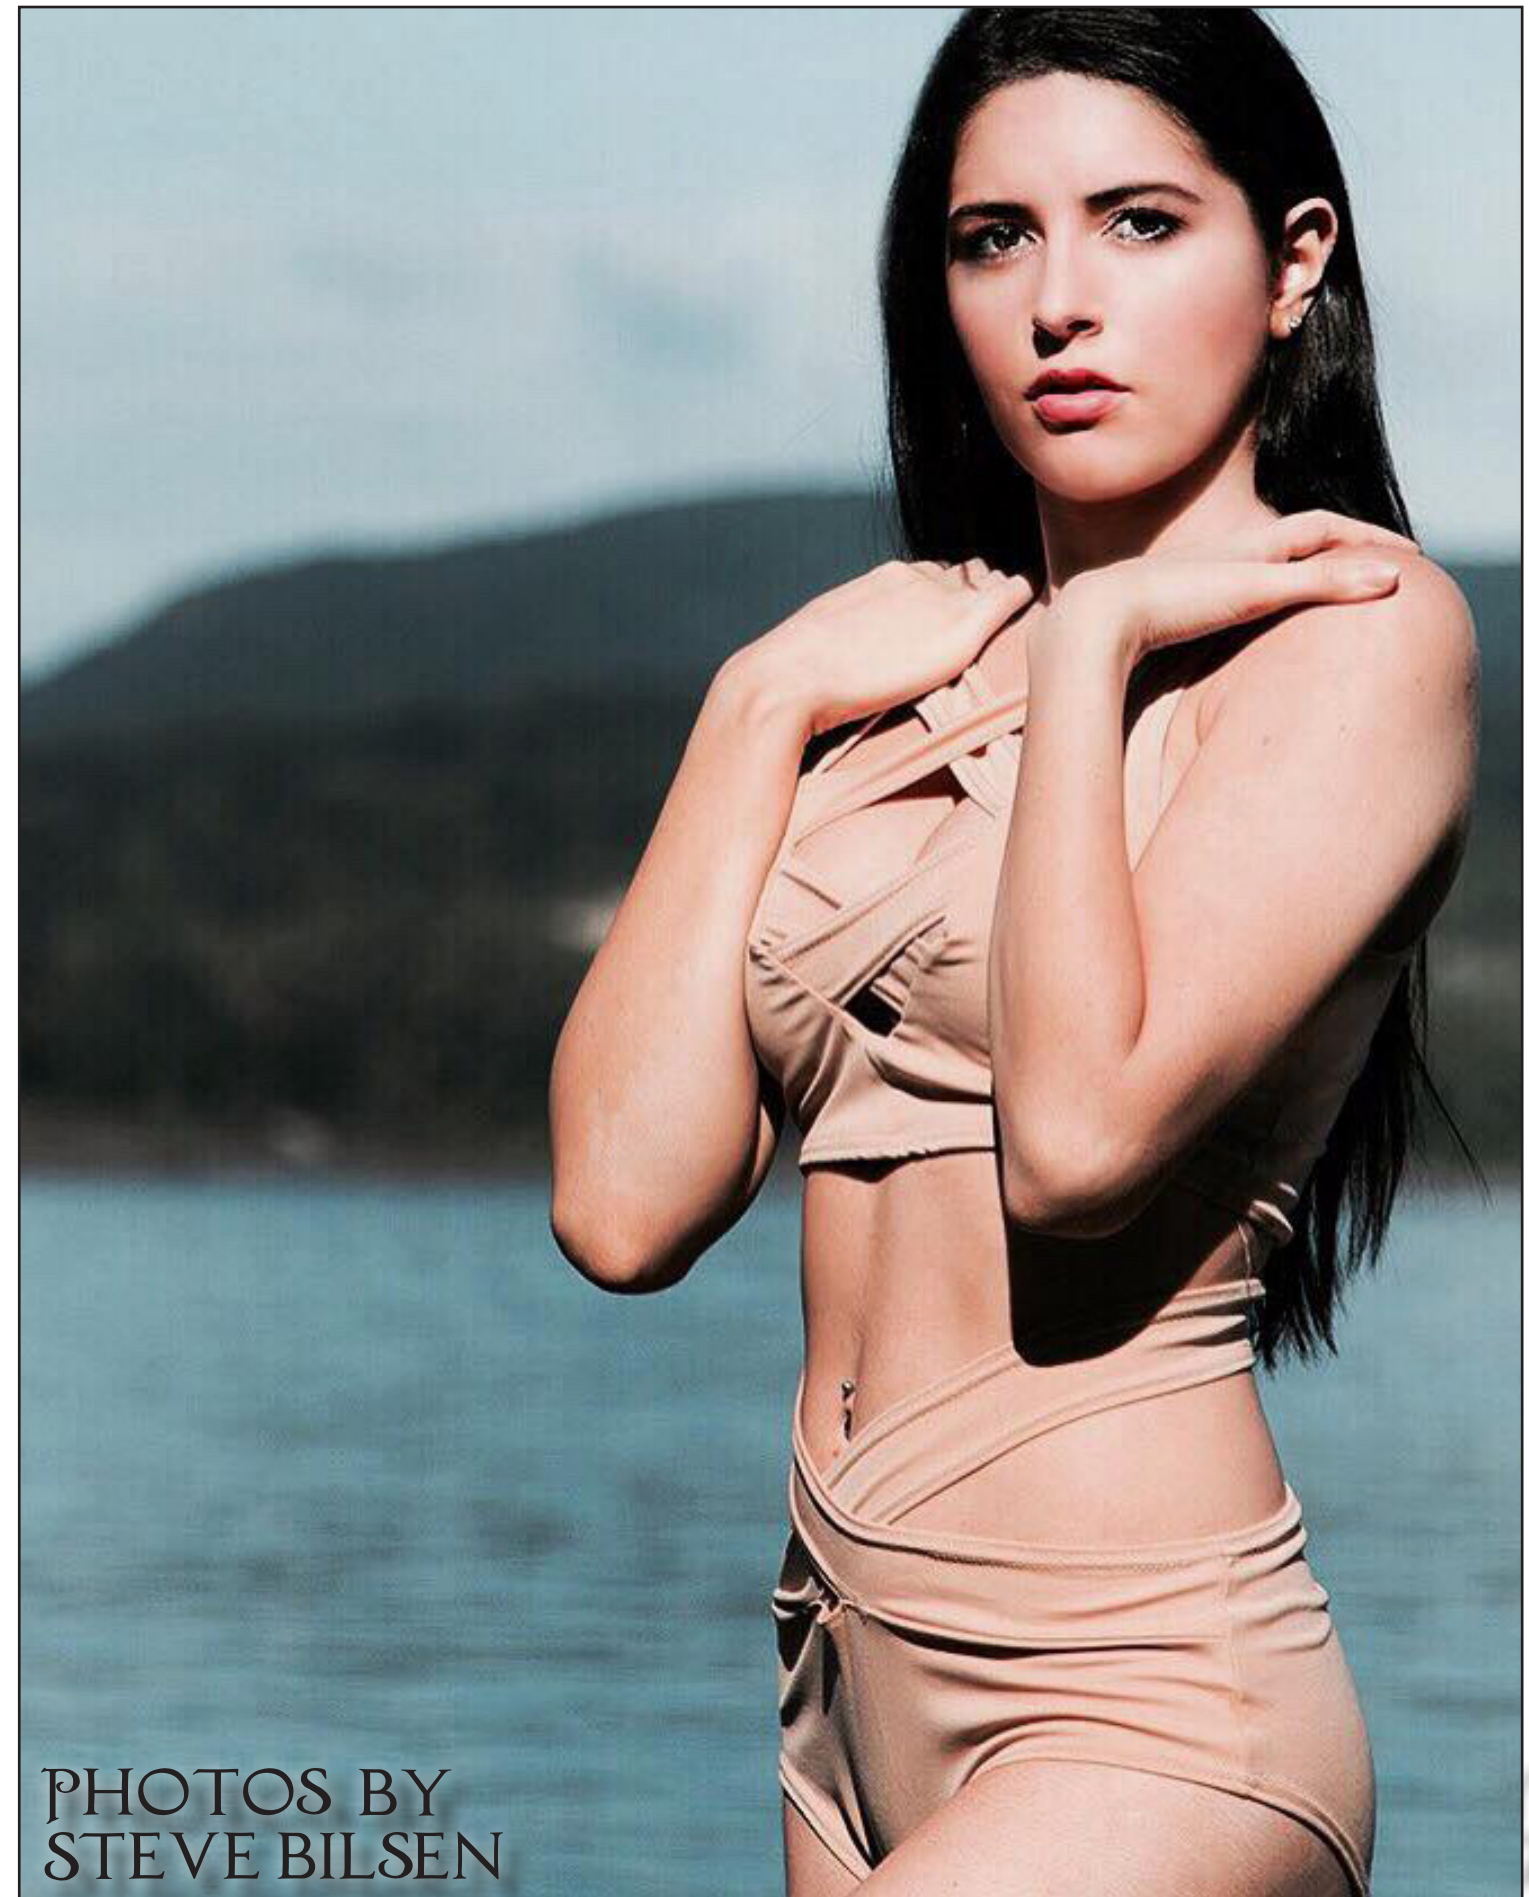

away, went and did a photo shoot for The Toronto Sun and got published again. Soon after I was invited to act for Aqua Mermaid (a new swimming exercise used to work the core), I went and got published on Global News that was a whole new experience for me I loved being on TV it was so much fun. Soon after started to model for my friend Rebecca Sprau did a lot of promotional work for her company, she was so much fun to work without she published me in her pamphlet she gives to all her customers. Later on Toronto Sun republished the same shoot I had previously done, so I reapplied and made it up for another shoot. I'd like to thank everyone for all the help and support along the way a special thank to Memories Digital Imaging for starting me off into the modelling world!

Stephanie Ellen Almeida

Stephanie Ellen Almeida is from Miami Florida and loves to be in the water. Her family, originally from Brazil, moved to the USA just in time for her to start Pre-k. After leaving everything behind and moving to New York City, at age 18, she found a new way to stay close to the beach and that was bikini and swimsuit modeling. "I've always found the water to be a place of peace and calm. I go there when

I want to relax or clear my mind." She admittedly had a fear of large bodies of water at a young age after watching Jaws at age 7 but over came her fear and can't stay away. She love snorkeling and paddle boarding when she is home and finds comfort in actively volunteering to preserve marine live in New York. It is known that Miami and NYC have an exciting nightlife but which one is more

exciting? " I love the nightlife in both NYC and Miami but I have to say that Miami is the place to be. Its always nice weather and when you leave the club or bar you're always steps away from the beach. It's amazing. After a long night you get to just sit and watch the sunrise with all of your friends." She says her freshman year in college was all a fun and crazy blur and that she will never forget those years. She still

returns to spend spring break in Miami every year. Stephanie has worked for many years in the modeling and entertainment industry. She's worked shows such as the Jerry Springer Show, The Maury Show, and The Steve Wilkos Show. She has interviewed celebrities during New York's Mercedes Benz Fashion week and co-hosted multiple syndicated televisions shows. She just started her journey in New York and continues to rise quickly. Stephanie hopes to make it big in the film industry and work her way to her own Hollywood star. Oddly enough, Stephanie graduated with a degree in Business Management and Marketing and has become successful as an entrepreneur. "I make my own hours, I do what I love everyday and I'm always gaining new experiences. That's really all I could ask for!" Along with acting and modeling Stephanie also writes for popular sites such as NYCasting.com, sings, and directs independent productions. As a child she would orchestrate small dance and musical productions during the holidays using every sibling and cousin that came over. "I was meant to create and perform and portray. I have always felt very in tune with my creativity and always feel an urgent need to just get it out!" Stephanie is a bubbly bliss and accounts much of her success to her ability to network and make connections. "Everyone is my best friend and that is the biggest problem I have in my life, thank goodness." One thing people may not know about her is that her stomach never runs out of space! "I eat and eat all day everyday and I never get full! I love food and love to try different things all the time." Another surprising fact about Stephanie is that she is still scared of the dark. "I think it's from watching so many scary movies as a kid. That was all I would watch and now I always feel like there is something scary in my closet." She is currently dating her college sweetheart and they have been together for several years. "My boyfriend is so supportive and understanding which really makes it easier to try and pursue such a big dream. He's always been my rock, my cheerleader and my coach when he needs to be and I'm really lucky to have found him." Stephanie's boyfriend is Canadian and enjoys hockey and maple syrup in his spare time. Stephanie really believes it has been her friends and family who have helped her reach this point and continue to help her soar. "Without my family and friends I wouldn't be where I am today. I truly believe that anything is possible when you have so much love in your life

Jennifer Benner

Where do I start. Well first off my name is Jennifer better and I'm a native of Edmond Oklahoma. I have my bachelors in business administration, as well as hold a barber license. However, my dream is to make modeling a full-time career.

I aspire to be the girl on the cover of all the magazines. To be the beautiful woman I always saw the covers of my mothers magazines. The women I grew up ogling over. And there's no better time to make that happen the now.

At a very young age I knew I wanted to be the girl I saw in my mothers magazines. I wanted to be in the spotlight, wear the fancy clothes, and just be as beautiful as those women.

By 16 I visited small modeling agency located here in Oklahoma and I was told I would never be a runway model due to my height of 5'6, so I kind of placed it to the side after I got in a car wreck yet knew that one day no matter how long the wait I would make my dreams come true.

During my early 20's began to do promotional modeling and have continued to further pursue other endeavors within the modeling industry . I have delved into my full career, touching base with each genre and and pushing my limits within my shoots.

I have been published in a small calendar shot here in Oklahoma and continue to strive for more publications in my future.

With that said I envision my dreams to be my reality. I will be that "it" girl I knew I always wanted to be.

It takes perseverance and patience to make Succes. Dedication and motivation to make it happen.

Kiss kiss,

Kidd Vicious
